REHAU Interior Solutions

For over 50 years, REHAU Interior Solutions has been a trusted partner to the global furniture and woodworking industry. With a dedicated team of 3,200 professionals across 60 countries, we collaborate closely with our customers to ensure they consistently deliver outstanding products.

Our journey began when we pioneered manufacturing process to produce PVC edgebands in early 1950s making REHAU synonymous with the invention of PVC edgebands – now an industry staple recognised for its functionality and benefits. Today, we stand as the **world's #1 edgeband provider**, a position earned through the trust of our customers and our commitment to unmatched service, perfect material matches, the widest selection and continuous innovation.

Because of this relentless dedication, we are **the undisputed experts in edgebanding**. There is no other name in the industry more trusted than REHAU. When it comes to edgebands, no one knows them better than we do.

Over the past 50 years, our innovation and expertise have grown beyond edgebanding. We today have a wide range of surface solutions and furniture components that are recognised for their superior quality and wide collections. Through extensive R&D and advanced material engineering, we continuously develop new and improved surface solutions that are unique, aesthetic and durable.

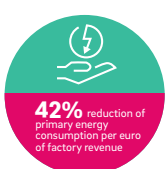

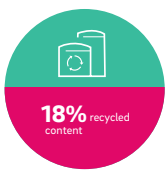

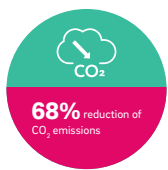

While we strive to innovate, we are always mindful of your well-being. Sustainability is at the heart of our processes, ensuring minimal environmental impact while maintaining the highest standards of quality and performance.

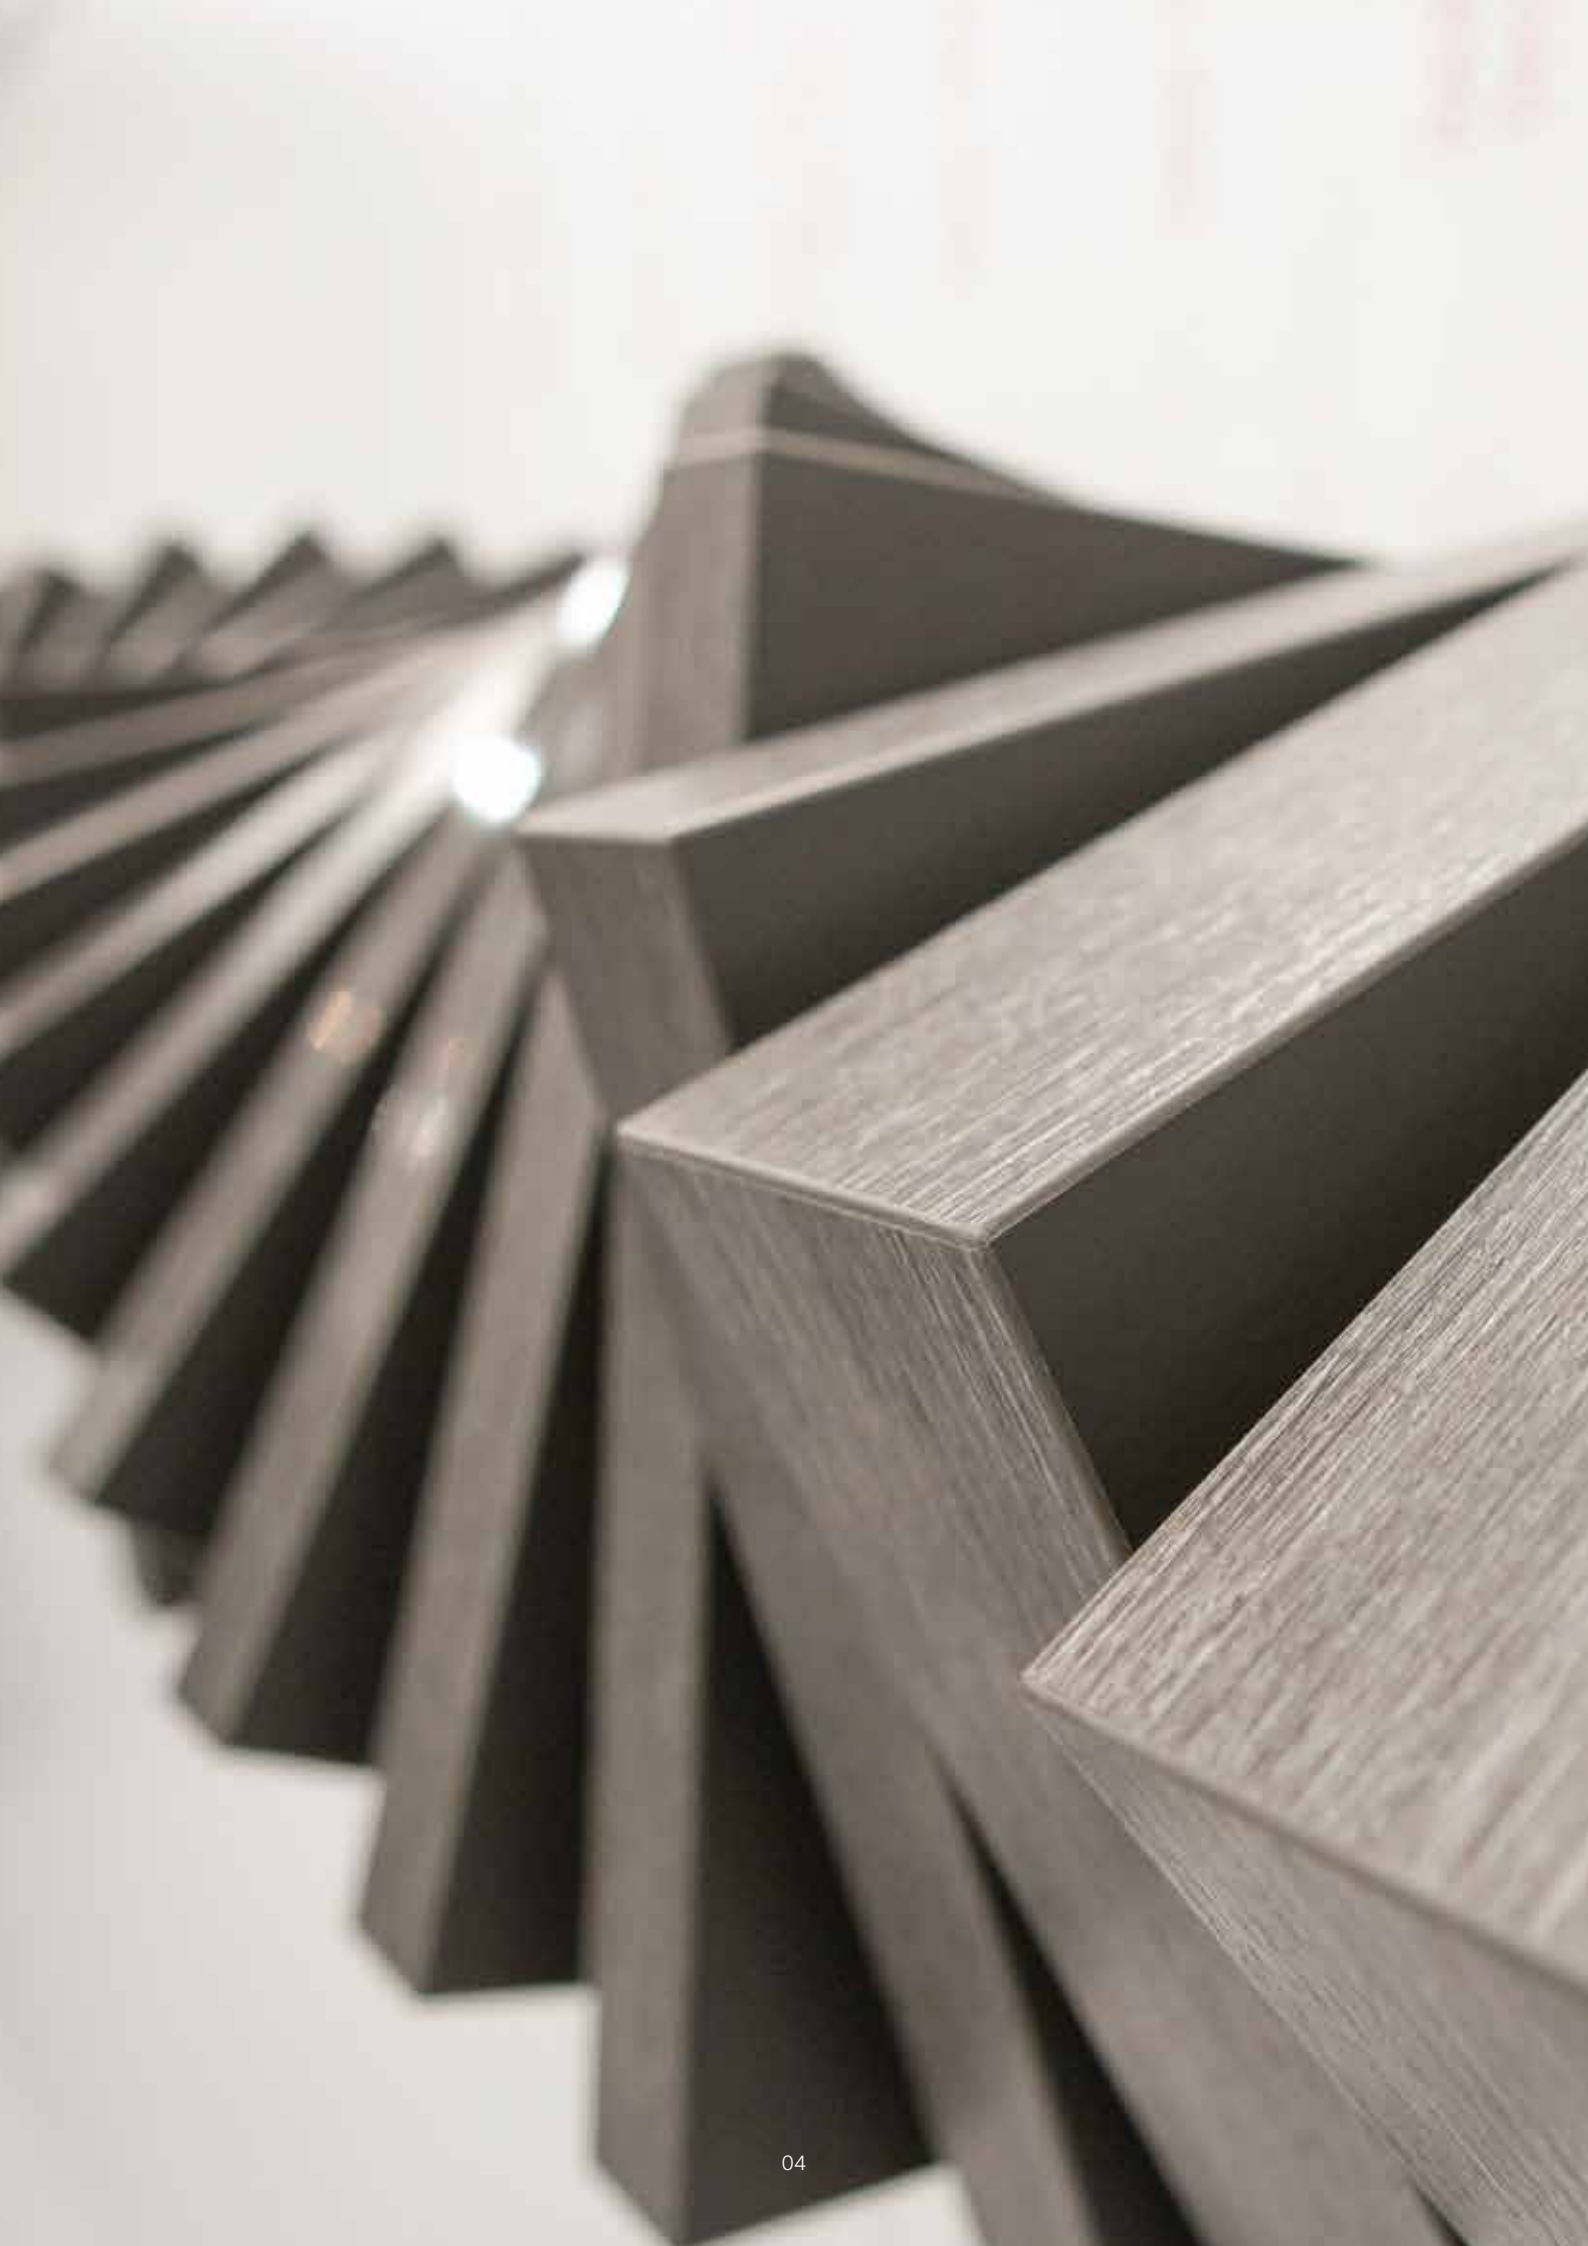

At REHAU, we go beyond making products - We create solutions that redefine interiors, **FOR YOU.**

Planet First

Sustainability is a driving force within the REHAU Group strategy.

A close-up photograph of several wood-grain edgebands. The bands are arranged in a slightly overlapping, diagonal pattern, showing a natural wood texture and color. The lighting is soft, highlighting the grain details.

Edgeband Philosophy

At REHAU, we believe perfection lies in the details.

REHAU edgebands are not just finishes; they are seamless expressions of harmony. With continuous colour and texture developments, we continue to innovate edgebands every single day, to bring the perfect matches to you.

RAUKANTEX edgebands

Globally
Recognised &
Award Winning

RAUKANTEX edgebands

For over five decades, REHAU's RAUKANTEX edgeband collection has been a global leader, offering unparalleled style, functionality and user-friendly solutions. Throughout its illustrious history, the 50 years of RAUKANTEX have marked numerous milestones. The success of RAUKANTEX is based on REHAU's three strong pillars that promise an enhanced living: Trust, Innovation and Reliability.

Features:

Wide embossed pattern available

More than 20,00,000 edgeband options

- 100% match with boards and laminates from leading manufacturers
- Wide embossed patterns

RAUKANTEX super High Gloss

The world of high-gloss boards/laminates and the spectrum of corresponding gloss levels are vast. Based on the customer requirement and area of application, you can create a perfect surface with optimum gloss level. REHAU offers super-high-gloss finish, matched to corresponding boards and laminates in addition to the high-end mirror gloss surface.

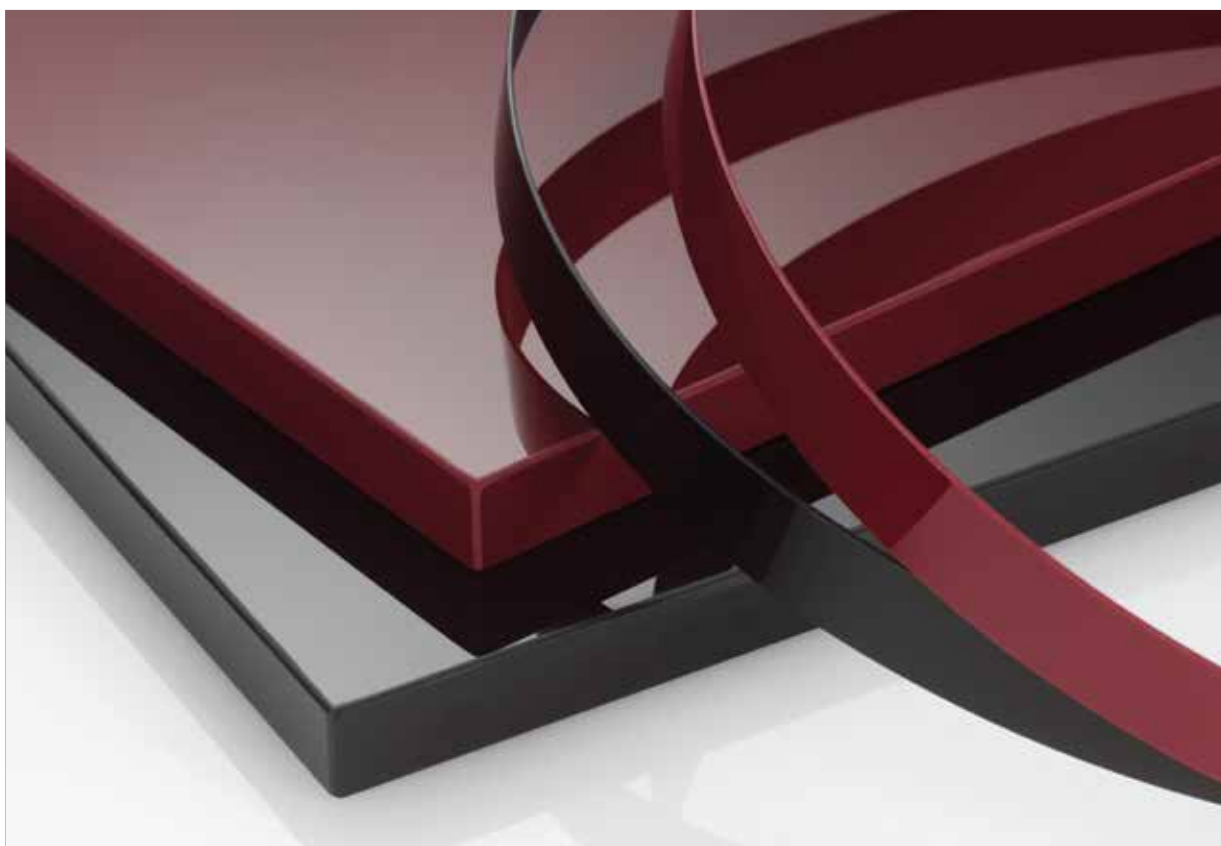

Material : PVC and ABS

Lacquer type : Super high gloss lacquer

Advantages

- New super high gloss finish with gloss level of over 85 points with smooth and reflective surface.
- Designed for use in regular edgeband machine without the need for special settings.
- Comes with protective film to prevent scratches during processing or transportation.

RAUKANTEX mirror Gloss

The high demand for high-gloss surfaces in upmarket interior designs for office and living space is set to continue. When creating high-gloss surfaces, it doesn't come down to gloss level alone; the high-gloss finish is influenced considerably by the neutrality in the surface. The eye perceives a mirror effect only when both these factors resonate. Striking the perfect balance between the twin factors is the secret behind the success of the RAUKANTEX mirror gloss edgebands. Having a lacquer application with over 85 gloss level points and unique smoothness of the ABS surface, RAUKANTEX mirror Gloss sets the highest standards.

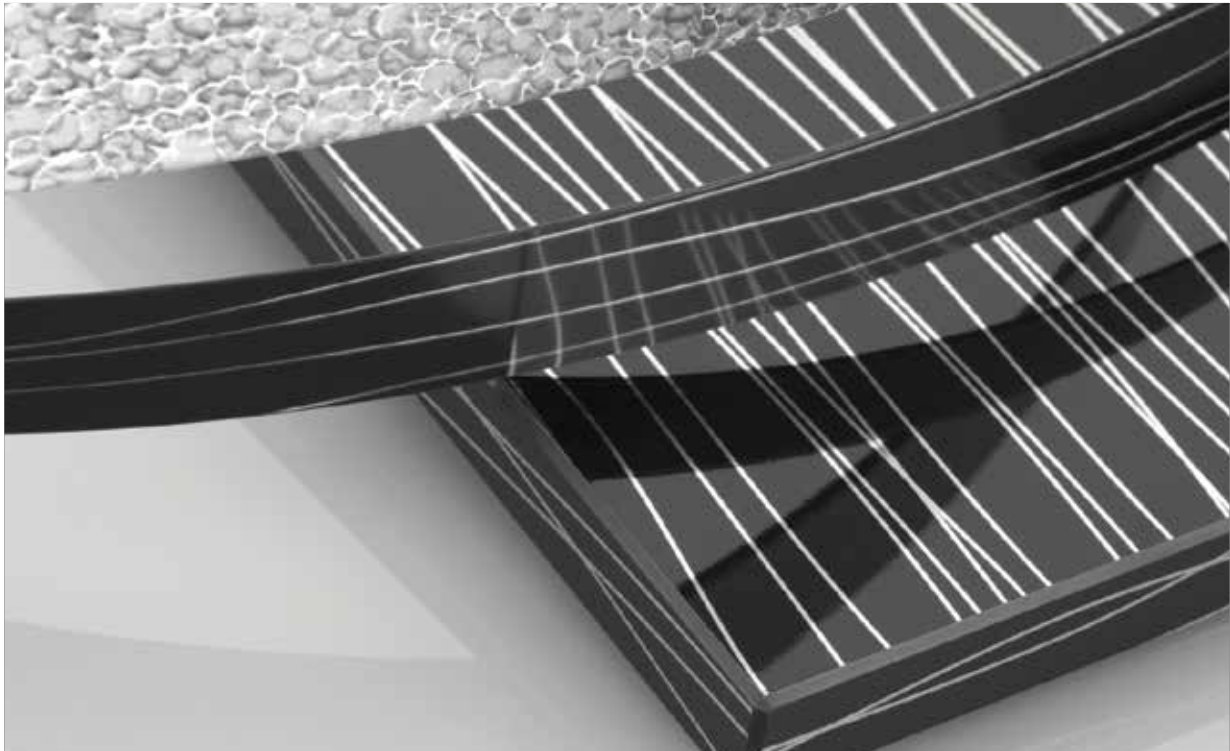

Material : ABS (without embossing)

Lacquer type : Mirror gloss

Features:

- The ultimate in gloss edgeband
- A gloss level of over 85 points and a pure, reflective quality, sets new standards for mirror surface effect
- Delivery with protective foil
- Now includes the dimensions 45 x 1.3mm for wide-horizontal applications in kitchen and bistro
- Fresh colours and striking decorative designs are the newest additions to our collection

RAUKANTEX magic 3D

REHAU can now add two distinctly different gloss finishes to one decorative design. By using two different lacquer types, we have successfully managed to produce unique effects creating a 3D illusion. Ingenuity of the new brushed titanium, foamed metal and rain decorative designs convince even the most discerning critics. The processing properties however, have remained the same for all of the innovations: good radius compatibility, a finish that requires no reworking, radii that can be polished and decorative designs that remain intact even when the radius is milled. They can be matched to popular boards or laminates.

Advantages

- Zero-hour adjustment time - no special adjustment required on machine parameters
- New perspectives in the creative edge design along with RAUVOLVET roller Shutter
- Various combination of colours/décor and two different finishing on surface are possible
- Combinational design, metal foil and processing advantage of polymers
- Economical alternative for compact aluminum edge applications. There is no need for special adjustment on machine parameters

RAUKANTEX Magic 3D

Material PMMA (Polymethyl methacrylate) with new decoration process

Embossing Smooth/223

Lacquer type Standard lacquer

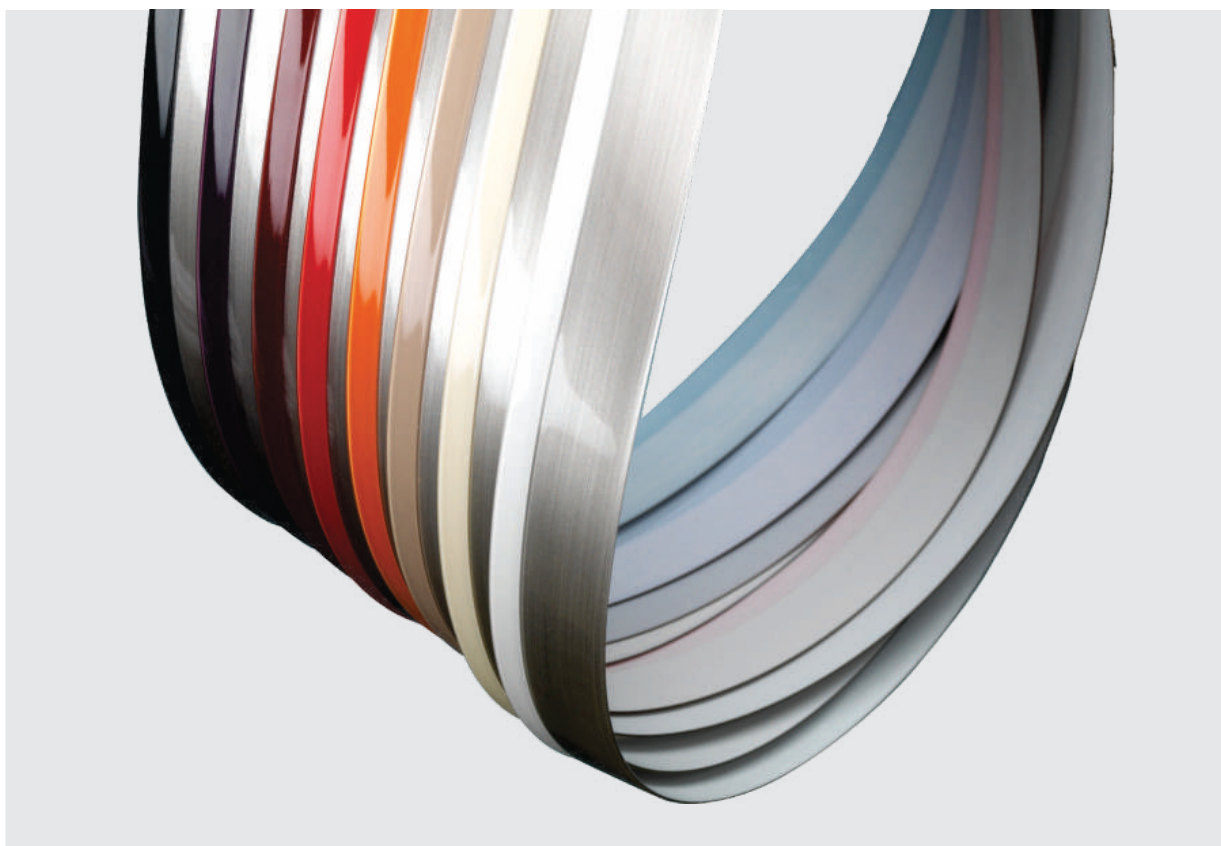

72236 - Aluminium (Art. no. 309509-002)

Material PP (Polypropylene) with real aluminum or steel surface

Embossing Smooth/223

Lacquer type Standard lacquer

RAUKANTEX v-twin

A particular highlight within the V-Twin is the stepped edgeband with a groove. Whilst the upper section of the edgeband is available in typical glass colours, the lower section features aluminium. When combined with a surface of the same shade, this gives an appearance of a real glass-like top surface.

Material : ABS

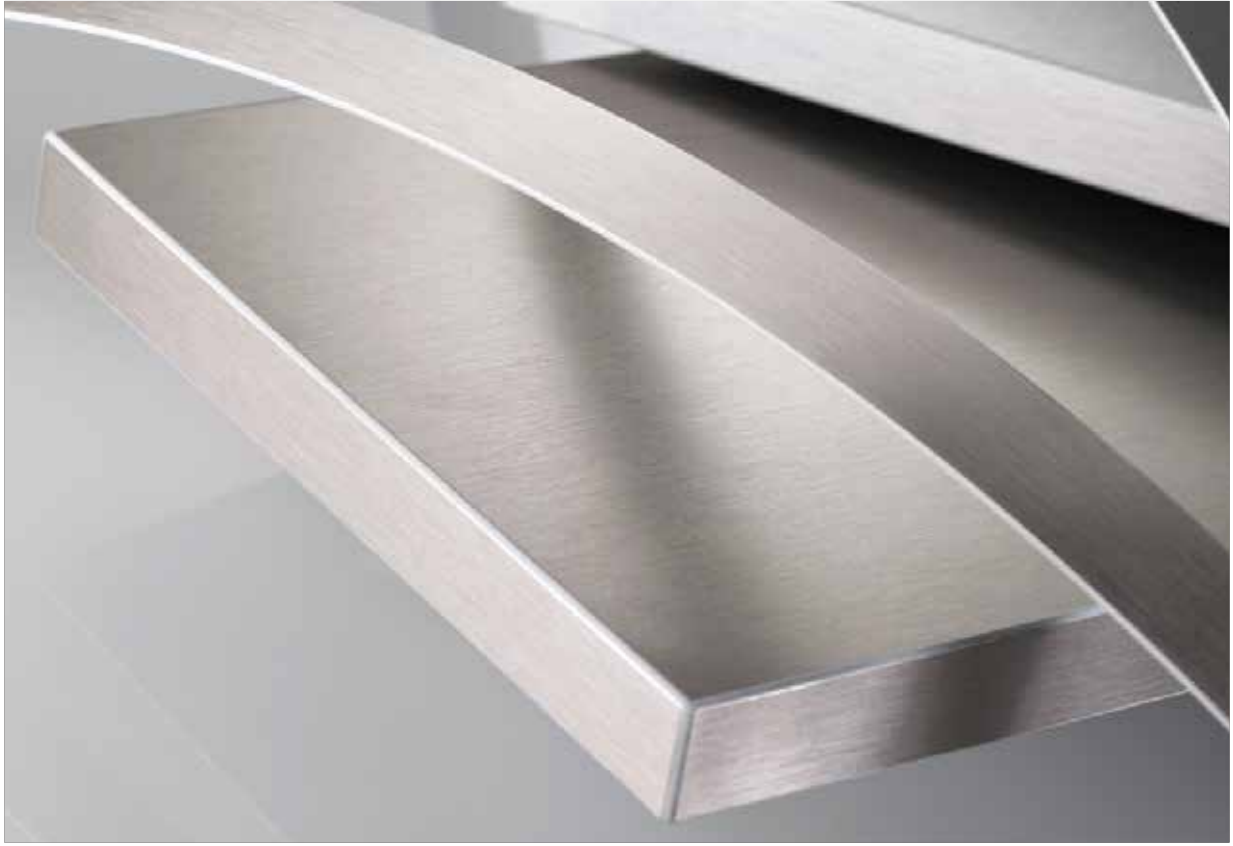

Lacquer type : Super lacquer

Advantages

- Combination of the design aspect of glass with the processing advantages of polymers
- Special surface protection - 100% resistant to typical accidental scratches
- Various combination of colours/décor and two different finishes on surface is possible
- Zero-hour adjustment time - no special adjustment required on machine parameters
- New perspectives in the creative edge design along with RAUVOLVET roller shutter

**Available
in 10
Shades**

RAUKANTEX metallo

Whether cool aluminum or high-quality stainless steel - metal is ever increasing demanding trend in design world. Our unique proprietary process, effectively combines metals and polymers to achieve a true metallic look without the processing difficulties of traditional metal banding. Experience Magic II with real metal foil, the premium metallic edging that can be used in any design.

Advantages

- Laminated real metal foil
- Aluminum or stainless steel finish applied to the surface of a PP (polypropylene) base
- Look and feel of traditional metal banding
- Easily applied with standard edgeband equipment; straight line or contour edgebander

RAUKANTEX wood Veneer

Wood has many varieties: walnut, maple, beech, ash, etc., each corresponding to a particular shade. This range in the natural variety of wood is also available in RAUKANTEX wood Veneer edgebands.

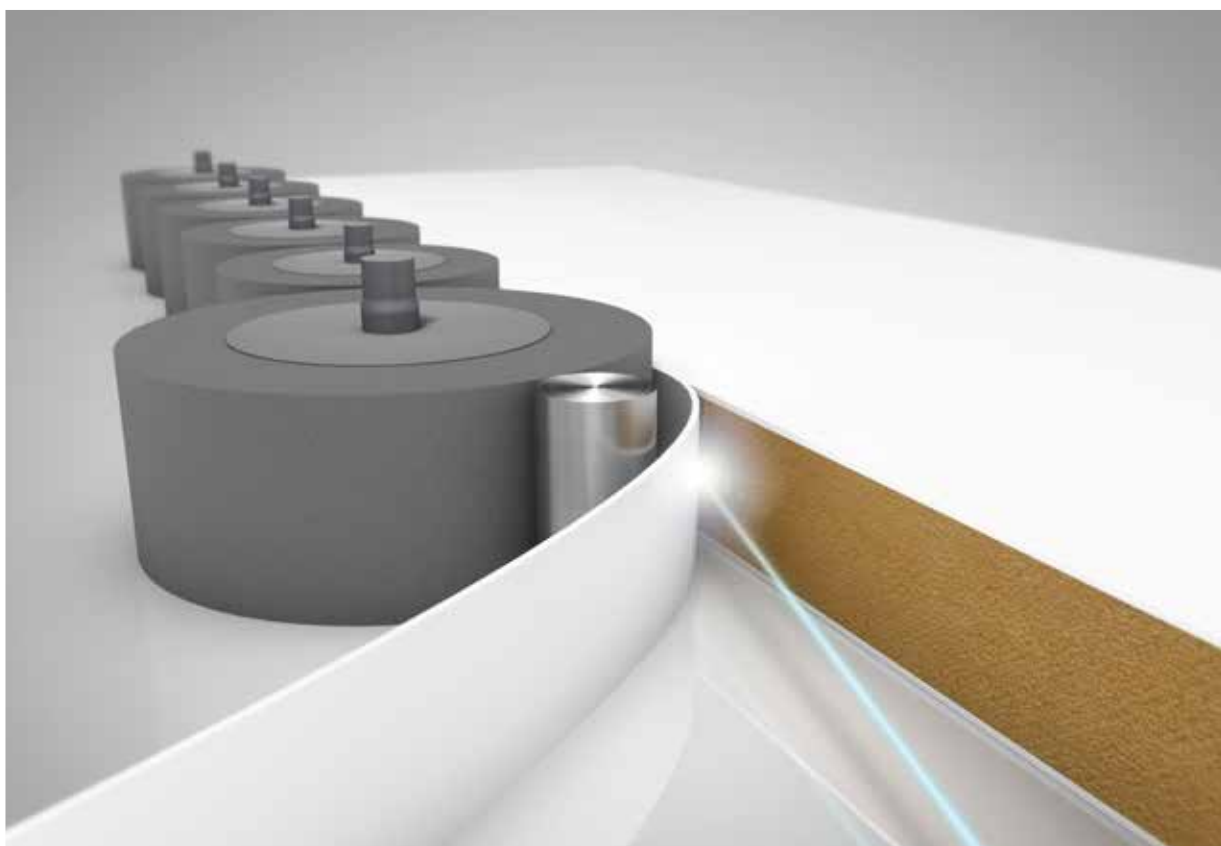

During production, the veneers are sorted according to growth characteristics and appearance, so that within each batch the master rolls produced are of uniform colour. With its wide variety of wood types and thicknesses, the RAUKANTEX wood Veneer edgeband range can provide a suitable match for every application.

Material : Wood veneer

Advantages

- Real wood veneer collection
- European wooden pattern
- Multi-layered with adhesive-coated sides
- Asymmetrical and finger joints

RAUKANTEX laser Edgebands

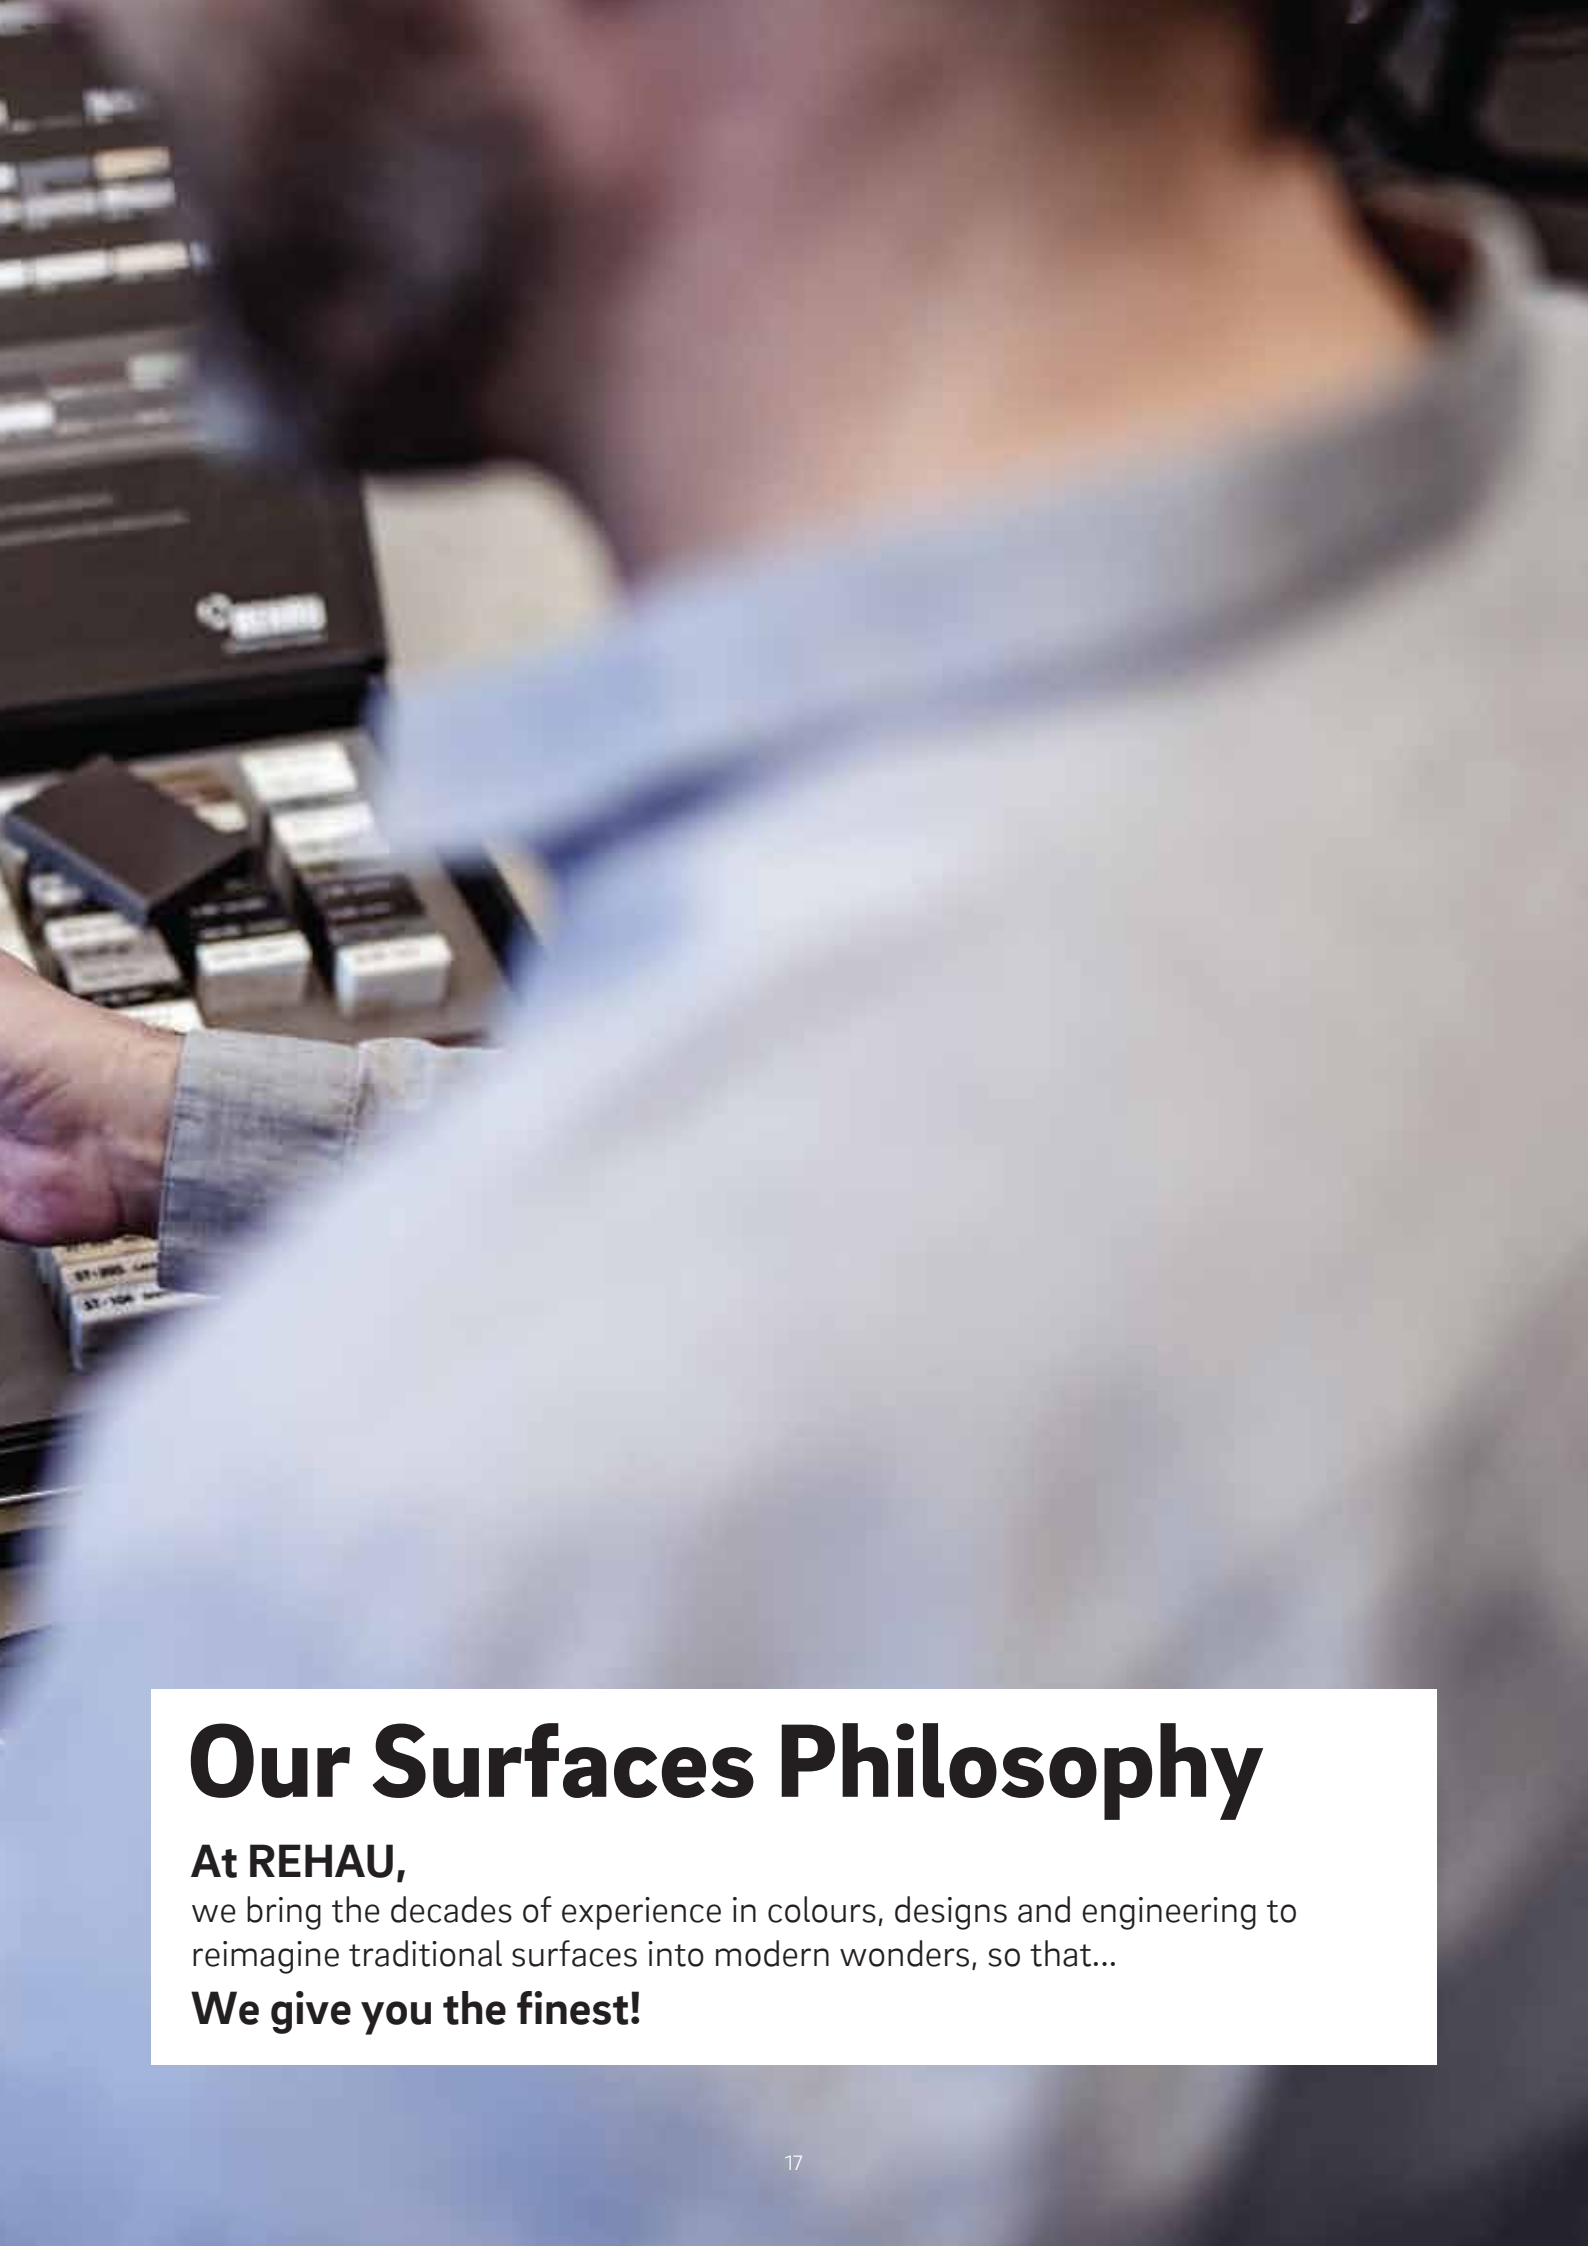

Laser Edgeband is a revolutionary product from REHAU to help you achieve a seamless finish with no framing effect. The pre-applied, co-extruded polymer functional layer replaces the traditional glue, allowing for a much superior and seamless joint between the edgeband and the board.

Advantages

- Achieve visually beautiful monolithic panel look
- Best moisture resistance, heat resistance and performance over time
- Seamless joint and a higher quality seal
- Creates a bond equal to or greater than PUR (no delamination)
- Higher quality edging allows you to promote a higher-end finished product at a premium
- No hotmelt or down-line cleaning of excess adhesive from finished panels

Our Surfaces Philosophy

At REHAU,

we bring the decades of experience in colours, designs and engineering to reimagine traditional surfaces into modern wonders, so that...

We give you the finest!

RAUVISIO Laminates

RAUVISIO crystal Pure Laminates

The Smart Glass Laminate

Pure like a grain of sand. The detail blends into the mass – calm and vision dominate the space. In RAUVISIO crystal Pure, minimalism meets durability. The material combination of the monochrome surfaces made of smart glass enables limitless possibilities for designing rooms. The pure harmony of the collection puts the focus on people and leaves space for what is important.

Why choose crystal?

50% lighter than real glass

10x tougher than real glass

20% less waste compared to real glass

SAFE, like everything REHAU makes

Can be marked with whiteboard markers (high-gloss surfaces) or chalk (matt surfaces)

Soft touch, anti-fingerprint finish on matt surfaces

20% higher scratch resistance to real glass

Laminate
2440 x
1220 x 2 mm

Sustainability guaranteed
Our RAUVISIO crystal Pure products fulfil PEFC criteria for a sustainable supply chain for forest products.

Can be perfectly matched with our roller shutters and edgebands to give the look of perfection.

Expand your possibilities of design with RAUVISIO crystal

Easy processing

Whether it's customisation, dimensionally accurate pre-cuts or holes for handles and fittings - you can easily process RAUVISIO crystal Pure using pre-existing wood working tools, without the risk of breaking it or producing any rejects. Even bends and free-form parts can be created without problems.

Grooves and inlays

Thanks to grooves and inlays, RAUVISIO crystal Pure offers even more design flexibility.

Back lighting

The rear grooves are ideal for back lighting using conventional lights. This will allow you to add even more highlights.

Can be used for bathroom applications

Crystal Pure laminate is moisture-resistant and hygienic, making it ideal for stylish and durable bathroom surfaces. Perfect for vanities, wall panels, and cabinetry.

Break and scratch-resistant

RAUVISIO crystal Pure is break-resistant and is therefore suitable for large-scale industrial production. Its shock and break resistance result in 20% fewer rejects. The material is also as scratch-resistant as real glass and therefore highly desirable - even for end customers.

Easy to write and erase

On glossy RAUVISIO crystal Pure laminates, it is possible to write with conventional board markers, which can be easily erased without leaving any residues. Chalks can be used on matt surfaces.

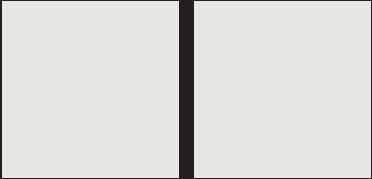

Easy to clean

The non-porous surface is sealed with a hard coat finish, and can therefore be cleaned without problems. RAUVISIO crystal Pure is also suitable for use in rooms with the highest hygiene requirements.

RAUVISIO riviera

The Extraordinary Acrylic

Introducing riviera, the premium laminate that brings the vibrant essence of tropical beauty into your home. Available in both high-gloss and matt finishes, riviera offers a luxurious high gloss and super matt appearance that enhances furniture fronts and surfaces.

Inspired by the fresh, exotic flavours of coastal landscapes, this laminate delivers exceptional colour quality, depth, and brilliance. It's the perfect choice for creating sophisticated furniture pieces that truly stand out.

Riviera's versatility and superior surface quality make it ideal for contemporary living spaces, ensuring a flawless look that aligns with the latest trends in furniture and interior design.

Elevate your interiors with riviera and experience the pinnacle of luxury and style.

Riviera laminates are crafted to minimise environmental impact and are produced entirely within an environmental management system that has been independently certified to ISO14001 standards.

Riviera laminates are suitable for vertical applications.

Why Choose RAUVISIO riviera?

RAUVISIO riviera laminate not only brings style and elegance to your interiors but also offers unmatched durability and ease of maintenance.

Usage Benefits

Colour and UV stable

Flexible processing

Scratch resistant

Dimensions (mm):

Gloss - 2440 X 1220 X1

Matt - 2440 X 1220 X 0.7

Processing Benefits:

- Can be easily processed using standard woodworking tools
- Lower production cost
- Flexibility to laminate and process acrylic on-site opens up more design opportunities

Expand your possibilities of design with RAUVISIO riviera

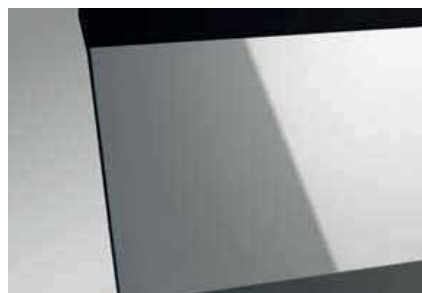

Sawing and drilling

RAUVISIO riviera can also be processed with conventional wood working tools to make – individual and dimensionally accurate pre-cuts, holes for handles or fittings.

Bending and folding

RAUVISIO riviera is ideal for simple bending and folding. It can be shaped into nearly any form and thus provides a lot of design freedom for sophisticated furniture designs.

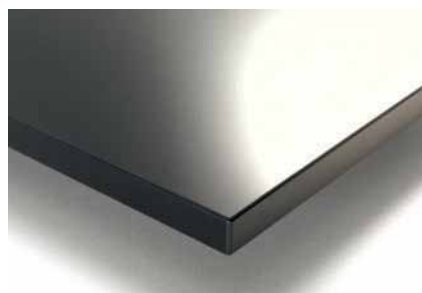

High gloss on the milling radius

Combined with polymer zero-joint edgeband and new processing technologies, conventional frame effect disappears completely with RAUVISIO riviera. The result is a perfect, all-round gloss on the entire work-piece.

UV resistance

RAUVISIO riviera has excellent lightfastness and UV resistance. So there are no colour variations between different light and sun exposures in interior applications.

RAUFLOOR neostein

RAUFLOOR neostein

RAUFLOOR neostein is an epitome of REHAU's innovation. The plank comprises of Rigid Core Vinyl Tile (RCVT) and is characterised by five special layers: UV layer, wear layer, colour film/printed layer/ vinyl top coat, an RCVT core and a foam or cork backing layer. The top most UV layer protects the surface from most scratches, dirt, chemical contaminants and offers resistance to abrasion. The wear layer gives it durability, stain and scratch resistance which helps in easy cleaning, while the printed layer provides the desired pattern to the surface. The ultra-dense RCVT core makes it water proof and durable and the foam or cork backing helps in the installation process by smoothing out minor imperfections in the subfloor.

RAUVISIO mono

RAUVISIO mono the modified Acrylic solid surface from the house of REHAU adds grandeur to your space. The surface is easily mountable for both vertical applications like wall cladding as well as horizontal ones like windowsills, countertops, vanity tops, desktops, islands, tabletops, laboratory tops, and workstations. As they are heat, acid, and dye resistant, they also have the added benefit of requiring less maintenance and repairs. For a smooth and desirable finish, explore the widest choice of colours and textures.

Features:

RAUVISIO mono marmoreal

Bringing a new level of warmth & natural feel to the interior surface solutions.

Mono Marmoreal is a marble design collection or modifed acrylic solid surface which is inspired by nature such as mountain, water and stone. It is a captivating combination of marble patterns and translucent chips with excellent design possibilities and long lasting performance. In order to beautifully illustrate the beauty of nature, REHAU develops the colours with linear and stone pattern. The marmoreal collection offers unique possibilities for design styles, ideal for commercial as well as for home decoration. This material is recommended for straight application whether vertical or horizontal.

RAUVOLET roller Shutter Systems

RAUVOLET noble Matt

Elegance meets functionality

Don't limit yourself. RAUVOLET noble matt makes a true design statement with the tambour doors coordinating perfectly with the surfaces.

Get pure elegance for furniture with a monolithic design without unwanted changes of colour or material.

Product advantages

Beauty that you can feel. RAUVOLET noble matt not only impresses with its matt appearance, even at low angles, but its anti-fingerprint surfaces and soft-touch finish also make it ideal for daily use. Of course, it always offers the customary REHAU quality and smooth operation.

The art of storage

Storage solutions to suit every taste, without compromising on functionality - that's the aim of our 'The art of storage' collection. Whether it's noble matt, glass-effect, or metal tambour doors or a FLIPDOOR system, you can decide which cabinet is right for you. Matching surfaces and edgebands complete the look.

Features:

Scratch-resistant

RAUVOLET vetro Line 2.0

World's first 'plug and play' glass roller shutter system

RAUVOLET Vetro Line 2.0 offers a unique way of bringing together two previously incompatible solutions - simple installation with convenient functional characteristics of tried and tested RAUVOLET cassette system, and the design features of genuine glass. This ready-to-install cassette module just needs to be screwed into the cabinet.

Advantages

- Space saving up to 30% compared to regular swing doors - the roller shutter can be left open at any desired height for convenient 100% access.
- The excellent gliding properties offer smooth and quiet opening and closure of the cabinet. The roller shutter is designed to withstand heat, steam and water in the kitchen. While steam and water can cause regular swing doors to swell and eventually show cracks and bulges, RAUVOLET stays as new for years.

Colours available

Lacquered Black

Opti White

Satinato Frosted

Dimensions

RAUVOLET crystal Line 2.0

Whether you desire ample storage space or a much more modern look for your interiors, RAUVOLET crystal Line 2.0 offers you the best of both the worlds. With the sophisticated look and design of glass as well as the improved strength, better scratch resistance and lighter weight of a polymer, it is expertly crafted to suit the modern interior designs, be it for kitchen, living room or a shop fit-out.

Advantages

- Sophisticated look and design of glass
- Improved strength, better scratch resistance and light in weight
- Based on Vetro Line 2.0 mechanism

RAUVOLET metallic Line

RAUVOLET metallic Line Frame 4 offers a unique way of bringing together two previously incompatible solutions - simple installation with convenient functional characteristics of tried and tested RAUVOLET cassette system, and the design features of genuine glass. This ready-to-install cassette module just needs to be screwed into the cabinet.

RAUVOLET metallic Line tambour door system makes exclusivity possible.

- High-quality, exclusive look
- High operating comfort
- Light, smooth running
- Pleasant feel

Advantages

- The new subtle design of the track system made from solid aluminium highlights the exclusive appearance of the RAUVOLET metallic Line effectively - for the first time
- Easy to install due to convenient cassette solution
- Delicate track system and reduced accessories creates a sleek design
- Combination of exclusive aluminium or stainless steel (SS) surfaces with the convenient, functional properties of polymer tambour door systems

RAUBOND adhesives

RAUBOND Water-based Adhesives

RAUBOND presents a range of water-based adhesives, comprising Champ, PolyMaster and Rapid-X. These adhesives are suited for various applications. Being a multi-purpose adhesive, RAUBOND Champ is perfect for manual pressing and laminating applications, including hot press and cold press. RAUBOND PolyMaster is ideally used for PVC edgebanding, along with pasting plywood to acrylic sheets, PVC sheets and charcoal sheets. With its fast setting application, RAUBOND Rapid-X is used in marine ply, marine laminate, finger jointing and laminating applications (hot press, cold press and roller press).

Packs available in (kg) : 1/2, 1, 2, 5 and 50

Applications

- PVC edgebanding
- Plywood to acrylic, PVC and charcoal sheets
- Wood to wood adhesive
- HPL to plywood
- Finger jointing
- Critical wood applications

Strong bonding

Water-resistant

Quick setting

Maximum spreadability

Heat-resistant

Durable

Water-based adhesives for OEM

RAUBOND also offers a range of water-based adhesives exclusively for OEMs: WudTite, WudTite Pro and Swift.

RAUBOND wudTite is a multipurpose adhesive that instantly bonds with surfaces.

RAUBOND swift is a waterproof adhesive prepared with a termite resistant formula, ideal for applications requiring fast setting.

RAUBOND wudTite Pro is crafted with an anti-bubble formulation which makes it perfect for critical wood applications and vertical pasting.

Excellent strength

High coverage

Critical carpentry

Waterproof

Termite resistant

RAUBOND hotmelt adhesives

RAUBOND offers a range of hotmelt adhesives recommended for use with manual and through-feed machines over a temperature of 120-200°C. Additionally, low temperature adhesive is also available for processing thin edgebands.

RAUBOND hotmelt variants

- Techpro Clear 6768
- Techpro 545/15
- Techpro 545/05
- Techplus 580/15
- Techfix 544/15
- Techmanual Clear6765
- Techmanual 6722/15
- Techmanual 6723/15

Applications

To be used in manual and automatic bending machines for strong adhesion between the substrate and:

- Veneer
- Resinated paper edges
- PVC
- Polyester
- ABS
- Melamine resin edges and heart-wood

Features

- Grades available for through-feed, semi-automatic and manual edgebanding machines
- Excellent melting properties
- Excellent adhesion for bonding PVC, wood veneer
- PP and ABS
- No stringing
- European quality
- High thermal resistance
- Medium viscosity
- High green strength

**Available
in 25kg
Bags**

Shelf life: 2 years, in a properly closed package; to be stored in a cool and dry place.

Wood Working Accessories

REHAU Masking Tape

General purpose masking tape

The robust tape for everyday jobs, REHAU Masking Tape can be used on almost all surfaces and gets removed easily without leaving any residue. It can be used at all workplaces and job sites. REHAU Masking Tape is a cost-effective and pressure-sensitive product that holds and seals perfectly, providing superior quality adhesion for 14 hours.

Features

- Wide range of applications
- Masking, splicing, bundling and packaging
- Conforms to all surfaces
- No residue transfer on removal

Sizes available

Width	18mm and 24mm
Length	20m and 40m

Possible application areas:

Furniture

Hardware

Paints

Automotive

RAUCORD weaving Solutions

RAUCORD weaving material brings together refined aesthetics and exceptional performance, making it a preferred choice for high-quality furniture design. With its natural look and feel, RAUCORD adds a touch of elegance and warmth to any space, indoors or outdoors.

Crafted to endure daily use and varying climates, it offers remarkable durability while maintaining its beauty over time. Whether used in contemporary lounges or classic patio settings, RAUCORD delivers both style and comfort, allowing you to enjoy relaxed living without compromise.

Choose RAUCORD for a seamless blend of tradition, innovation and lasting charm.

Elegance Meets Functionality

RAUCORD materials blend sophisticated design with everyday durability, perfect for outdoor living

Indoor and Outdoor Comfort

Transform your balcony, garden or patio into a cosy extension of your home

Luxury in Every Breeze

Enjoy the calming touch of premium craftsmanship with every moment spent outside

Your Outdoor Sanctuary

Create a seamless, stylish space to relax, breathe and unwind in total comfort
